

When Old Is New Again

RETRO

BY REMCRAFT

As the baby boom generation nostalgically recalls the 1950's, Remcraft brings back some of our most popular fixtures from that era. That was the age of clean lines, smooth shapes and satin aluminum finishes. Our **RETRO** fixtures feature those same designs and are made on many of the original tools but updated with today's quality features and fittings.

**314 Series Up-Down Cylinders**

Satin aluminum cylinder  
Metallic grey canopy and trim
